---

## Introduction

This risk assessment training course will give participants the necessary information and skill to enable them to identify hazards within the workplace, recognise risks and implement a control measure, such as a risk assessment or to carry out a thorough and effective accident investigation.

## Aims & Objectives

- Familiarisation with Health & Safety Law
- Awareness of hazards, risks and control measures
- Safety signs and Safe Systems of Work (SSOW)
- Accident prevention and investigation
- How to assess and document the risks in your workplace
- Infectious disease safety measures

## Learning Outcomes

Creation of an effective risk management action plan to embed learning.
